During summer, be prepared for both very hot and cold weather, high winds, rain, snow, extreme UV levels and some sections of snow or ice on the ground. Before starting this walk, check advice with [Snowy Region Visitor Information Centre](#) (02) 6450 5600, the [weather forecast](#) and the [snow conditions](#) then change your plans as needed. These notes, grades and walking times have been written for use in the summer months only. When there is a chance of significant snow on the ground, visitors will need particularly strong navigation and snowcraft skills - tracks and signage may not be visible. For most visitors, it is best to consider this walk closed during the colder months.
